

Marble Armor is a clear protective film that protects natural stone from etching and staining. This 10-year warranty is provided by **Rose Restoration**.

What is covered

Rose Restoration warrants that the Marble Armor film will protect the stone from etching and staining, and will not yellow, blister, bubble or delaminate, for a period of up to 10 years from the date of installation.

If the film is found to be defective under this warranty, Rose Restoration will remove the defective film and replace it with new Marble Armor at no charge. No registration is required.

What is not covered

- Scratches and cuts in the film.
- Peeling from repeated edge contact, such as picking.
- Film peeled away from the stone (intentional damage).

The film is made to be replaced. If a section is scratched, call us to replace it. The marble underneath is not scratched.

Life expectancy

The film keeps protecting until it is removed. Normal use scratches it over time, so owners replace it for appearance. Typical replacement:

Residential	Every 6 to 9 years
Hotels and commercial	Every 5 to 8 years
Restaurants and bars	Every 3 to 5 years
Exterior, direct sun	Every 2 years
Exterior, partial shade	Every 3 years

Care and maintenance

- Clean with mild dish soap, warm water and a microfiber towel.
- For stubborn spots, use rubbing alcohol or acetone on a microfiber rag.
- Always use a cutting board and a trivet for hot items.
- Never use abrasive sponges, steel wool, Comet or Softscrub.
- Do not pick at the edges or spray them with high-pressure water.
- Light scratches self-heal in 20 to 30 minutes; warm water speeds it up.
